**Franklin County Municipal Court Clerk's Office Unveils a New Responsive Website Design on Monday, November 28**

The Franklin County Municipal Clerk's Office unveiled a new responsive website design on Monday, November 28. The new design was created with readability and user friendly ease for those on the move. The website will self-adjust to all devices, large or small. Mobile visitors will enjoy directions that link to their phone's navigation and simple linked phone numbers for a quick and easy tap and call experience. The Clerk's public access records search also received a facelift to make it more efficient and useful to our users.

"It's all about service! Providing information on demand in a responsive design for everyday users," Tyack said.

You may view the new website by visiting [www.fcmcclerk.com](http://www.fcmcclerk.com).
